## **Important Information**

Our plans group each medication into a tier. The number of tiers may vary based on the plan you choose. You will need to use your formulary to locate what tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug's tier and what stage of the benefit you have reached. Through this document you will see the "♦" symbol. Services with this symbol may require prior authorization from the plan before you receive the services from network providers. If you do not get a prior authorization when required, you may have to pay out-of-network cost-sharing, even though you received services from a network provider. Please contact your doctor or refer to the "Evidence of Coverage (EOC)" for more information about services that require a prior authorization from the plan.

## Part D Prescription Drug Benefits

### Deductible Stage

This plan has a **\$100** deductible. The deductible applies to Tier 3 (Preferred Brand), Tier 4 (Non-Preferred Drug), and Tier 5 (Specialty Tier) only. There is no deductible for insulins.

You begin in this stage when you fill your first prescription of the year. You pay the full cost of prescription drugs up to the deductible amount before moving to the initial coverage stage. The deductible stage applies to BlueMedicare Group Rx only. In the deductible stage, if your prescription drug cost exceeds the deductible amount and moves you into the initial stage, you may have to pay the deductible and applicable tier cost share.

## **Initial Coverage Stage**

You begin in this stage after you meet your deductible (if applicable). During this stage, the plan pays its share of the cost of your drugs, and you pay your share of the cost. You remain in this stage until your total yearly costs (your payments plus any Part D plan's payments) reach **\$5,030**.

You may get your drugs at network retail pharmacies and mail order pharmacies. Our plan gives you preferred pharmacy options. You can fill your prescription drugs at one of our preferred pharmacies to save even more on most prescriptions.

<i>See Evidence of Coverage for details.</i>	<b>Preferred/Mail Order/LTC (31-day supply)</b>	<b>Standard Retail (31-day supply)</b>	<b>Preferred/Mail Order (90 to 100-day supply)</b>

### Coverage Gap Stage

Most Medicare drug plans have a coverage gap (also called the "donut hole"). This means that there's a temporary change in what you will pay for your drugs. The Coverage Gap Stage begins after your total year-to-date drug cost (your payments plus any Part D plan's payments) reaches **\$5,030**. You stay in this stage until your year-to-date "out-of-pocket" costs reach a total of **\$8,000**.

During the Coverage Gap Stage:

- For generic drugs in all other tiers, you pay **25%** of the cost.
- For brand-name drugs, you pay **25%** of the cost (plus a portion of the dispensing fee).
- For insulins, you won't pay more than **\$35** for a one-month supply of each insulin.

### Catastrophic Coverage Stage

After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy and through mail order) reach **\$8,000**, you pay:

- **\$0.00** copay for all Part D drugs in all tiers.

### Additional Drug Coverage

- Please call us or see the plan's "Evidence of Coverage" on our website ([www.floridablue.com/medicare](http://www.floridablue.com/medicare)) for complete information about your costs for covered drugs. If you request and the plan approves a formulary exception, you will pay Tier 4 (Non-Preferred Drug) cost-sharing.

- Your cost-sharing may be different if you use a Long-Term Care (LTC) pharmacy, a home infusion pharmacy, or an out-of-network pharmacy, or if you purchase a long-term supply (up to 90 days) of a drug.
- Our plan covers most Part D vaccines at no cost to you including shingles, tetanus and travel vaccines.
